Growth

WORK EXPERIENCE

Founder

laptopDAO -- Non-profit that provides builders with a tool

07/2022 - Present

Buy a laptop for a kid

Achievements/Tasks

- Partnership with a NFT collection [smolcoders](#) and crowdfunded 2 laptops for kids from India
- Created landing page, Discord server, Docs, Voting process, DAO on Nation
- 14 votes on Solana Summer Camp public voting
- Three people joined the team on volunteering basis
- [GITHUB LINK](#)
- [LOOM Presentation](#)
- **Tech Stack** : Javascript, React, React Three Fiber, HTML5, CSS3, Vercel

Junior Engineer

Mining farm startup founding team

10/2021 - 05/2022

Hosting and maintenance of clients' mining rigs

Achievements/Tasks

- Setup of mining rigs
- Troubleshooting, repairing minor issues on GPUs
- Kept growth mindset during founding phase
- Reseller of computer hardware components

PERSONAL PROJECTS

Threejs side projects (07/2021 - Present)

- [Shipspace](#)
- [Galaxy](#)
- [Haunted House](#)
- [Donutverse](#)
- **Tech Stack** : Javascript, React, React Three Fiber, HTML5, CSS3, Vercel, glTF

Weekend hacker at Buildspace -- The world's largest network of web3 builders

(11/2021 - Present)

- Won 2nd place on community organised hackaton with the team. My work included frontend using React
- Built various projects on multiple blockchains e.g. Ethereum, Solana

EDUCATION

Self-taught software engineer

@ Codesmith

03/2020 - Present

Courses

- This is where my Javascript journey started. Building up my problem-solving, technical communication and learning engineering approach the hard-way -- with a lot of "not knowing", debugging and patience.

BA in Political Science

University of Belgrade, Faculty of Political Sciences

10/2015 - 09/2021
